PROFESSIONAL PROFILE

Senior Product Designer with 7+ years in product design and a 15+ year career in design. I work on complex end-to-end problems, from discovery to interaction detail, across agritech, e-commerce, logistics and media. I focus on B2B platforms, backoffices and internal tools with multiple user profiles and permission levels.

I design clear interfaces and build design systems from scratch to keep growing products consistent. I validate with research and data, and align design with product, technology, operations and business. I use generative and agentic AI (Claude, ChatGPT) day to day to speed up discovery, research synthesis and prototyping. I'm empathetic and autonomous, and I also do my best work as part of a team: for me, product and engineering are essential for my work to turn out well.

WORK EXPERIENCE

Senior Product Designer | OCA (leading logistics company in Argentina) Nov 2023 – Jun 2026

- End-to-end design of the core products of Argentina's largest logistics company's digital transformation (5,000+ employees, 2M+ monthly shipments): ePak (corporate shipping), a billing backoffice replacing a legacy COBOL system (projected 70%+ reduction in processing time), OMS and integrations with VTEX, Tiendanube and Magento.
- Redesigned ePak and the tracking experience: cut operational task time by 30% and Customer Experience queries about the platform and shipment status by 50%.
- Created and scaled the design system (Ñandú), from architecture and tokens to adoption by the whole design team and 6 squads: nearly 2x faster deliveries and cross-platform consistency from 0% to 40%.
- Established product discovery practices, pre-development information architecture and UAT processes in a context with no prior research.
- Implemented **Agentic AI** and generative workflows to speed up discovery, component documentation and research synthesis.
- Led the design team (5 people) in the final stage, with a focus on craft, consistency and product culture.

Senior Product Designer | Agrofy (leading agri marketplace in LATAM) May 2021 – Oct 2023

- End-to-end design of the advanced geolocation solution (home, listing and detail) incorporating distance and user location in heavy machinery, where freight is a critical variable: +12% filter usage in Argentina (+21% mobile) and +37% in Brazil, with 9.1% conversion in filtered sessions vs 3.5% without.
- Field research at Expoagro and Agroactiva: guerrilla interviews with farmers in their real purchasing context.
- Co-built Agrofy's design system (Mate): 40+ components used by 10 product teams, with 100% of screens built from the system.
- Continuous work with KPIs, heatmaps and analytics; executive presentations to CEO, Head of Product and business stakeholders.

Semi-Senior Product Designer | Agrofy Nov 2020 – Apr 2021

- Designed user experience applications and platforms for strategic external clients: YPF and La Rural.

- Designed the Agrofy News content site and its mobile application.

Design Lead & Product Designer | FM Metro 95.1, Infocampo, El Federal (media group) 2016 – Nov 2020

- Led a team of 3 in art direction and digital product design for five high-reach editorial brands, with system coherence and per-brand visual differentiation.
- Started my UX and product work in 2019 with the redesign of the Metro 95.1, El Federal and Infocampo websites: from mirror portals to independent digital channels with their own audience and metrics.
- Finalist at El Ojo de Iberoamérica 2019 (Digital Production, Global Design) for the Metro 95.1 website.

EARLIER CAREER (art direction & visual)

Design Lead & Senior Graphic Designer | EVFP / WideOnline (digital design studio) 2009 – 2016

Graphic & Web Designer | Estudio Moreno / Room 23 (design studios) 2006 – 2009

EDUCATION & TRAINING

Graphic Design | University of Buenos Aires (UBA), 2002 – 2007.

UX Design | Digital House Argentina, 2019. (UX Education Mentor, 2020-2021).

Additional training: Product Discovery Workshop, People Management Seminar (Instituto Madero, Dec 2024), Mobile UX Design, Advanced UX Writing, Interaction Design for Usability, Management & Marketing (UBA).

CORE SKILLS (keywords)

Product Design: UX/UI, Interaction Design, Information Architecture, Mobile & Web, User Centered Design.

Systems & Scale: Design Systems, Component Libraries, Design Token Naming, Accessibility (WCAG), Systems Thinking.

Complex Platforms: Internal Tools, Backoffice, Order Management System (OMS), B2B Platforms, E-commerce Integrations.

Discovery & Validation: Product Discovery, User Research, User Interviews, Usability Testing, Field/Guerrilla Research, Analytics.

Artificial Intelligence: Agentic AI, Agentic UI/UX, AI Workflows, Prompt Design, Claude, ChatGPT, Synthesis Automation.

Leadership: Design Leadership, Product Strategy, Stakeholder Management, Cross-functional Collaboration.

INTERPERSONAL SKILLS

Empathy, Collaboration, Autonomy, Self-directed and continuous learning, Stakeholder communication, Adaptability, Critical thinking.

TOOLS & LANGUAGES

Software: Figma, FigJam, Miro, Adobe Creative Suite, Notion. | **Languages:** Spanish (Native), English (Professional, B2), Portuguese (Basic). | **Awards:** Finalist, El Ojo de Iberoamérica 2019 (Digital Production).
