

PAULA AZCUE

SENIOR PRODUCT DESIGNER & DESIGN LEAD

Buenos Aires, Argentina | azcuel@gmail.com | [linkedin.com/in/paulazcuel](https://www.linkedin.com/in/paulazcuel) | pauazcuel.github.io

Availability: Full-time (Remote, hybrid or on-site)

PROFESSIONAL PROFILE

Digital product designer with nearly a decade of experience solving complex problems **end-to-end**, from product discovery to interaction detail, across agritech, e-commerce, logistics and media. Track record leading design teams, building design systems from scratch and establishing product discovery and user research practices in organizations undergoing digital transformation.

I bring strategic vision and systems thinking to flows involving multiple user profiles, B2B platforms, backoffices and operational tools. I work **hands-on**, ensuring high-quality UI while aligning product, technology, operations and business. Advanced experience integrating **Agentic AI** workflows, prompt design and large language models (Claude, ChatGPT) to accelerate discovery, research synthesis and intelligent prototyping.

WORK EXPERIENCE

Design Lead | OCA (Logistics)

Aug 2024 – Present

- Led the design team through the digital and brand transformation of Argentina's largest logistics company (5,000+ employees, 2M+ monthly shipments).
- Designed and scaled B2B digital platforms and critical internal tools: ePak (corporate shipping), commercial backoffice, OMS and integrations with VTEX, Tiendanube and Magento.
- Redesigned the tracking and communications experience, directly reducing inquiries handled by the Customer Experience team.
- Established product discovery practices, pre-development information architecture and UAT processes.
- Implemented **Agentic AI** and generative workflows to streamline discovery, design component documentation and automated research synthesis.

Senior Product Designer | OCA (Logistics)

Nov 2023 – Jul 2024

- End-to-end design of the core products of the initial phase: billing backoffice (replacing a legacy COBOL system), Order Management System (OMS) and ePak migration.
- Started OCA's Design System (Ñandú): architecture, token naming and first components with cross-team adoption in engineering.

Senior Product Designer | Agrofy (Agritech & Marketplace)

May 2021 – Oct 2023

- End-to-end design of the advanced geolocation solution: search redesign incorporating distance and user location across home, listing and detail pages, improving conversion in heavy machinery where freight cost is critical.
- Field research at Expoagro and Agroactiva: guerrilla interviews with farmers in their real purchasing context.
- Global Design System: co-built the component library consumed by multiple product teams across LATAM.
- Continuous work with KPIs, heatmaps and analytics; executive presentations to CEO, Head of Product and business stakeholders.

Semi-Senior Product Designer | Agrofy

Nov 2020 – Apr 2021

- Designed user experience applications and platforms for strategic external clients: YPF and La Rural.
- Designed the Agrofy News content site and its mobile application.

Design Lead & Product Designer | FM Metro 95.1, Infocampo, El Federal

Mar 2018 – Nov 2020

- Led art direction and digital product design for five high-reach editorial brands, ensuring system coherence and visual differentiation.
- Transformed the company's web platforms from simple mirror portals into independent digital channels with their own audience and business metrics.

EARLIER CAREER (ART DIRECTION & VISUAL)

Design Lead & Senior Graphic Designer | EVFP (WideOnline)

2009 – 2017

Graphic & Web Designer | Estudio Moreno / Room 23

2006 – 2009

CORE SKILLS (KEYWORDS)

Product Design: UX/UI, Interaction Design, Information Architecture, Mobile & Web, User Centered Design.

Systems & Scale: Design Systems, Component Libraries, Design Token Naming, Accessibility (WCAG), Systems Thinking.

Complex Platforms: Internal Tools, Backoffice, Order Management System (OMS), B2B Platforms, E-commerce Integrations.

Discovery & Validation: Product Discovery, User Research, User Interviews, Usability Testing, Field/Guerrilla Research, Analytics.

Artificial Intelligence: Agentic AI, Agentic UI/UX, AI Workflows, Prompt Design, Claude, ChatGPT, Synthesis Automation.

Leadership: Design Leadership, Product Strategy, Stakeholder Management, Cross-functional Collaboration.

EDUCATION & TRAINING

Graphic Design | University of Buenos Aires (UBA), 2002 – 2007.

UX Design | Digital House Argentina, 2019. (UX Education Mentor, 2020-2021).

Additional training: Product Discovery Workshop, People Management Seminar (Instituto Madero), Mobile UX Design, Advanced UX Writing, Interaction Design for Usability, Management & Marketing (UBA).

TOOLS & LANGUAGES

Software: Figma, FigJam, Miro, Adobe Creative Suite, Notion. | **Languages:** Spanish (Native), English (Intermediate - B2), Portuguese (Basic). | **Awards:** Finalist, El Ojo de Iberoamérica.
